Dexter Park Races

A Closely Contested Race. CHICAGO, Oct. 27 .- The free for all race which was begun at Dexter Park Saturday, Bashaw, Jr., Brother Johnsthan and Mila C., each winning one heat, was continued at the same track to-day. Notwiths and-ing the day was cold, with sufficient snow to make the track slipery, all the original starters were in except Lady Mac, who was distanced in the third heat of Saturday's race. The race was not finished, only three more heats being trotted, the first of which was won by Mila C. in 2:271. The other two were won by Molvie Morris in 2:261 and 2:30, when gathering darkness necessitated another postponement till to-morrow. Mila C. was distanced in the sixth heat for foul driving, so that as the race stands now, Mollie Morris has two heats and Bashaw, Jr., one.

ST. LOUIS.

The Prize Ring. Sr. Louis, Oct. 27.—Preparations for the prize fight between Tom Allen and Ben Hogan to morrow morning are about com-pleted. The coatest will come off at some point down the river. Allen left the city yesterday and Hogan to day, and will be picked up by the excursion boat as she goes down the river. Gov. Beveridge, of Illinois, instructed the Sheriffs of St. Clair and Madison counties, opposite here, to prevent the fight on Illinois soil, if possible, and it is probable the battle will take place some distance from this city. Both men are said to be in splendid coddition.

The Senate Committee Reach Cincinnati.

CINCINNATI, Oct. 27 .- The United States Senate Committee to-day met the committee of the Board of Trade and the Chamber of Commerce. A statistical re-port of the commerce of the Ohio river cities and towns was read, footing up to \$700,-000,000 annually, of the commerce of Cincinnati, together with the rates of freight by rail and water, compared, and the steamboat interest. In connection with the report of the joint committee it presented a recommendation to Congress to improve the navigable rivers, to construct great water lines with its own officers and retain control. They also expressed the opinion that railroad lines, however numerous could never supplant the use of water courses as a means of meeting the entire commercial wants of the country. The Burning of Columbia. Special to the Louisville Courier-Journal. WASHINGTON, Oct. 26 .- The statement that the British and American Claims Commission gave a quasi-judicial decision to the effect that Columbia, South Carolina, was not burnt by the Federal forces, is unfounded. The evidence before the commission going to show that the town was fired by Sherman's soldiers, with the knowledge and connivance of the leading officers, was overwhelming; but the agent and counsel for the United States, Mr. Hale, quoted authorities to show that a belligerent may lawfully destroy the property of an enemy gard of all nentrals residing in the invaded country, and that the measure of such destruction must be the judgment of the invading belligerent himself. The commission disallowed the twenty-four South Carolina causes, as they did nearly al others. They rejected, without assigning any reasons whatever, and the natural inference is that they decided questions of law for the United States rather than the historical fact, which was established and very feebly dis-

puted. The documents printed and used before the commission constitute a very large mass. The proceedings are all concluded, except the payment of the fortunate claimants. Mr. Henry Howard, Secretary of the British Legation, will probably be selected to disburse on the par. of Great Britain to British claimants the amounts found due to them. POLITICAL.

> New York, Oct. 26 .- The effect of the New York, Oct. 26.—The effect of the late financial trouble is beginning to be felt by the working classes. In many tradea large numbers of operatives were discharred at the close of the week for want of employment, or for want of funds to pay them. Three shoe manufactories closed Saturday night indefinitely. The employes in one establishment were ordered to work at reduced wages; but the men declined to work for wages below those established by the Crispins' Society, and were consequently discharged. Nearly every trade is affected similarly.

> NEW YORK, Oct. 27 .- The situation in Wall street to-day was marked by an unsettled feeling, unfavorable rumors and lower values generally.

Nurses Being Discharged. MEMHHIS, Oct. 26.—A beavy rain fell all day, closing at night with the heaviest rainfall of the season, with occasional thunder and lightning. There are no definite re-ports from the headquarters of the relief committees, the absence of which leaves a favorable impression. The leading under-taker has no order for to-morrow, which has not been the case since the first outbreak of the scourge. Only ten new cases are reported to-day. Dr. Blount died to-night; also Policeman Franklin. It is still raining, but the temperature is failing rapidly. The wind is changing to the north.

Yesterday's Auspicial Developments.

Memphis, Oct. 27.—From noon Saturday to noon Sunday the mortuary report was twenty six yellow fever and eight other causes. From noon sunday to noon to-day thirteen yellow fever and three other causes. The decrease in yellow fever is thirteen. Ice formed in many places this morning and the prospect is more hopeful. A few absentees are returning to the city, but the Board of Health have not advised so yet. On the contrary they say it is too early. Among the deaths to-day was Victor Fuchs, a game merchant. The yellow fever mortality yesterday was 28; the number of new cases was 21, against 39 Thursday, and 160 persons were discharged as convalescents, making 277 of the latter for the two days ending last night. These facts indicate a rapid decrease of the number of patients, and are certainly engaged.

ly encouraging.
A FEW FACTS ABOUT THE SCOURGE. The mortality statistics during the fear-ful scourge which has prevailed for more than two months past with unparalled malignly, will be an interesting feature to medlignly, will be an interesting leature to medical men. The Catholic parish of St. Bridget, over which Father Walsh presides, has lost 700 members by death since the fever appeared in its midst. St. Peter's parish, under the Domincan sway, from whence the Domincan sway, from whence the Domincan sway, from whence the court was in a mirthful mood also, and played off a practical mood also and mood also and mood Fathers Dailey, Carey, Sherby and O'Brien have abeen gathered to their fathers, has him \$5. lost 200 of its members. St. Mary's Catholic parish, comprised of Germans, over which the Franciscan fathers preside, has lost 60 of its flock. Rev. Dr. Slater's Methodist church has lost some 50 or more of its flock. The mortality among the other folds and orders has been reported from time to time.

THE FEVER AND THE PROSPECT. From the Memphis Avalanche, Oct. 26. The yellow fever has existed in Memphis has been epidemic, and not less than 1,200 man who happened to be going in that dipersons have died from the disease. As early as the 20th August there were several When the name of Mary Buffington was way, the official report for the week ending Saturday, the 21st, showing a yellow fever mortality of 128. During the week ending the 28th, the fever mortality dropped to 98, but it increased to 146 during the week ending the increased to 146 during the week ending the 28th, the fever mortality dropped to 98, but it increased to 146 during the week ending the 28th, the fever mortality dropped to 98, but it increased to 146 during the week ending this morning.

No response being made when the name of Wash Wilson was called, Club Colburn, Esq. stepped forward in a hesitating manending Oct. 4. The first frosts came on the 6th and 7th inst., and that week the epidemic reached its climax, for during the seven days closing Saturday, the 11th inst., the fever mortality increased to 280, its highest point. A few days later these frosts—immediately suc-ceeded by lighter ones—slightly checked the progress of the disease; for the week's

destroyed were mostly wooden with occasion ally a brick building. An engine sent from Creida and the Canastota engine played on the fire but the violence of the gale, in spite of drenching rain, neutralized all their efforts. Finally, there being nothing more to burn in that direction, the fire was subdued. Two hours before discovery of cases in future, unless this poison be harder

ast night, per Howard Association reperts the convalescents discharged, or ready for discharge, were respectively, 117, 160, 707—total 384, or a daily average of 128. Put these facts and the "black frosts" together.

From the Memphis Register, Oct. 26. The mortusry report for yesterday is still large; when we consider the diminished number of our population, it is very large. The number of sick is great also. The stalistics show that the pestilence is still alanghing our records on every band.

slaughtering our people on every hand.
Yet there are some encouraging signs. Out
of near six hundred persons reported sick
by the visitors of the Howard Association,
there were but nineteen new cases in yesterday's report. The Odd Fellows report
only two new cases; and all the different
visiting committees report those who are visiting committees report those who are sick to be doing well. Besides this, the weather on Thursday and Friday was cold ugh to kill the growth of the fever, bu yesterday it grew warm towards night, and after dark we had a heavy, misty fog, almost a rain. If this is followed by an-other cold spell we look confidently for a speedy abatement of the scourge. In the meantime let us work on and trust to God, who alone can give us full and final relief.

A new feature of the disease has made

Its appearance during the past week. It has assalled the black man—the real African—with fearful malignity. In a district where the writer visited yesterday the first time for a week, he found several full blood-ed Africans down with the fever, most of ed Africans down with the fever, most of whom will probably die within a few days. Heretofore the black skin has seemed to be like the blood upon the door post, a sur rotection from the scourge. It is to be soped that these people, who are poor and lestitute as a mass, may not now fall vicdisease from our midst cannot long be post-
